

## Constitution

The mission of the XWCS is to ensure the continuation of the hənqəmínəm language and culture. In order to achieve this goal, we have constructed a hənqəmínəm Language Revitalization Plan around four pillars: (1) advocacy and outreach, (2) teaching and language education, (3) resource development, and (4) language and culture revitalization. Each of these four pillars play an essential role in supporting the development of a successful language program across our communities.
